The College Council was convened at 3:00 p.m. on March 28, 1977. The Agenda was amended to include an item concerning "condition of campus lawns". The Minutes of February 14, 1977, were approved. Out of courtesy to guests present, Item VI, Progress Report on Reorganization of Student Government, was moved to the first item of business.

After lengthy discussion, the reorganization committee (Diana Hibbs, Wendy Pennell, Dick Wright, Irish McKinney and faculty consultant, Charles B. Summers) agreed to return at a later date with their recommendations for reorganization of student government.

Dean Donald Gangnes reported on progress of refining the College Operating Budget for 1976-77 due to budget revisions based upon changes in the revenue picture. He also discussed status of the 1977-78 budget development. Questions concerning (1) capital improvement projects; (2) capital equipment budget; (3) auxiliary services budgets, as well as the College Operating Budget, were addressed by Mr. Gangnes.

The chairman introduced for consideration by the Council the policy for amending Board of Trustees policy. Wendy Pennell moved to accept for review and study the proposed policy statement. Donald Gangnes seconded the motion. The motion was passed unanimously.

The status of the Long Range Planning Commission's work was reviewed. The Chairman reported that the project is on schedule.

Dr. Stevens reviewed the impact of the recent "advertisement" in the Collegiate Challenge and pointed out the extent to which the item had reflected on the College. Council members expressed concern for any activity which would reflect adversely on the College. Student representatives on the Council expressed concerns which had come to their attention because of the advertisement.

Council members receiving the State Board for Community College Education's Legislative News were urged to follow progress of legislation affecting the community college system.

Council member Wendy Pennell inquired as to the reason for "sanding" lawn areas. Carl Brown, Dean of Administrative Services, explained that the use of organic fertilizer and the result of thatching required the thin coat of sand.

There being no further items brought before the Council, the meeting was adjourned at 4:45 p.m.
