STRESS AND RAISING CHILDREN TOPIC OF TWO TCC COURSES

There are ways to handle stress and there are ways to avoid problems raising children.

Two courses offered this quarter at TCC take a long look at these skills. The classes start today.

The class called "Coping with Stress in Today's Society" will meet Monday, Wednesday and Thursday from 4 to 5 p.m. Worth three credits, the sessions form a guide to dealing with difficult situations. Students will also be told where to go in the community for help.

The class dealing with parent-child interaction is set for Monday through Friday from 12:30 to 1:30 p.m. The noon-time sessions will deal with children's problem behavior and ways in which parents and children can create positive relationships.

Both courses will be conducted by Pat Shuman, coordinator of TCC's Home and Family Life program. She can be reached at 756-5180 or 756-5076.

ACTIVITY FEE QUESTION STUDIED

BY FEDERAL GOVERNMENT

They're trying to make a federal case out of the collection and distribution of college student activity fees.

A proposed amendment to a U.S. Senate education bill sponsored by Sen. Alan Cranston (D-Calif.) would establish federal standards to insure a fair process for allocating activity fees among student organizations on a campus. The bill would also set up a

mechanism by which a majority of students could, by petition or vote, collect an additional fee which would be refundable to those not wishing to pay.

This second point of the amendment is supported by Ralph Nader who testified that students should have the opportunity to "tax themselves" and use the university as a collecting system. The refundable fee system is the primary funding mechanism the Nader-backed Public Interest Research Groups use.

CLASSIFIED PROFILE: FROM PANAMA TO TCC PLANTINGS

It's a long way from Panama to the Building 19 plantings.

Spike Baldwin, TCC buildings and grounds supervisor, until last January worked a small farm and pottery in the Panamanian highlands.

"The military started closing out small farms and businesses, including mine," Baldwin said.

"I learned everything I know about landscaping and gardening while working for the U.S. Government in Panama and on my farm," Baldwin explained.

"What I like most about my job at TCC is planting new flowers and trees every year and planning the new gardens that go with them," he added, acknowledging that spring, however, is also the hardest time of year as far as the workload goes.

It was working his own farm that gave Baldwin his ideas for efficient management, he decided. "I changed somewhat the system of getting things done here," Baldwin explained. "For example, trouble calls are now logged and assigned priorities. We handle what we see as the most important duty first."

He pointed out that his "can-do" group plans something new for the next year -- a pickable flower garden. "It will be filled with a variety of zinnias for people to pick and use for their own purposes," he said.

And don't be surprised if this offering of free flowers looks like it's never touched.

"You see," Baldwin explained, "the more that zinnias are picked, the more they bloom."

MOTION:

It was moved by Dick Giroux and seconded by Lloyd Berntson that Items 1 through 16 be approved for renumbering to conform to the course numbering system in Developmental Studies, to be effective Summer Quarter 1977. The motion carried unanimously.

17. New Course Adoption: Real Estate 245* (5 cr/5 lec/0 lab) - Economics and Environmental Issues of Real Estate (Prerequisite: Real Estate 150 or permission of instructor) To be offered Winter Quarter 1978.

Ron Powell, Real Estate Coordinator and Instructor, explained the proposed new course as one which was desired and recommended by the Real Estate Advisory Committee. The course is to review new real estate regulations, as well as to present upcoming items such as: Platting; On-Site Sewage Disposal; Water Availability; Shoreline Management; Economics of Highway Development, etc. He said that since there is no textbook designed for the course, there will be several handouts. He hopes to offer the course each Winter Quarter. Associate Degree Distribution Assignment was discussed. Dr. Rhule said that one charge for the Curriculum Committee might be to examine the Associate Degree Distribution assignment list and present recommendations to the divisions and faculty.

18. New Course Adoption: Respiratory Therapy Technology 144 - Respiratory Therapy Practicum (5 credits) To be offered Summer 1977. Associate Degree Distribution: Occupational
Dr. Rhule explained the new course in Joan Royce's absence. He said that it is now necessary to have an additional 400 hours of clinical work by each student for certification. This course will give students who do not have the required clinical hours an opportunity to complete them; since the hours are now necessary to qualify for the certification examination, all students in the Respiratory Therapy field must take the course.

19. Pilot and Experimental Course Adoption: Social Service 235 - Seminar on Volunteer Programs Management III (3 cr/3 lec/0 lab)
Dr. Rhule explained the course in Dr. Ronald Magden's absence. This is the third class for volunteer coordinators, and completes the three-course sequence needed for a one-year certificate for volunteer managers, as recommended by the advisory group. He explained that this sequence of courses probably would not be offered again for two or three years.

Other

1. Possible Grant -- Dr. Rhule said that Dr. Magden was in Seattle picking up guidelines for a possible grant for improvement of internationally related curricula. The three-year grant -- renewable each year for approximately \$30,000 -- would allow for upgrading skills and curricula, particularly in Political Science and Business.

2. Course Coding -- Dr. Rhule reviewed the progress of course coding which is now taking place in the state.
3. Commendation -- Dr. Rhule commended Ron Powell for his work with the State Board of Realtors.

There being no further business, the meeting was adjourned at 3:55 p.m. The next meeting of the Curriculum Committee will be held on Wednesday, February 2, at 2:45 p.m., in the John Binns Room of the Resource Center.
