

Charter Members' Begin Registration

Get a badge or a balloon, but students who register at the Tacoma Community College from Sept 13-24 will earn the distinction of becoming "charter members" of a brand new college.

Approximately 1,000 students will register during the 10-day sign-up period, with about 50 scheduled for each morning and 50 for each afternoon.

The registration procedure will be handled in strict numerical order; those who applied first for admission will be registered first, college officials pointed out.

Following is the registration procedure. Each step must be completed correctly before

the student can begin the next step.

1. Go to the lecture hall 15-1 for the following activities: verification of admission, completion of top half of personal data form and personal data cards, assignment to an adviser, discussion of the college publication, maps and charts, discussion of official class schedule and general instructions.

2. Proceed to library to meet advisor, select courses with aid of advisor and complete lower part of personal data form with advisor's approval.

3. Proceed to portable 3 to submit completed personal data cards and personal data forms for verification.

4. Proceed to portable 4 to submit verified personal data form to cashier, pay "total amount due" and retain student copy as official receipt.

5. Purchase text books and supplies at campus book store. You will be asked to show your registration receipt when purchasing texts.

Any necessary changes in registration require the approval of the advisors, according to Richard Falk, dean of students. He cautioned students to discuss any proposed changes with them.

Classes begin the week of Sept. 27. The registration receipt is the student's authorization to attend each class which is listed, the dean said.

Tacoma Community College PROGRESS REPORT

SEPTEMBER 13, 1965

TACOMA, WASHINGTON

President's Message

Today, perhaps more than any other period in our nation's history, adequate education has become a true necessity of life. Most problems faced by individuals and societies will be closer to solution as ignorance and intolerance are replaced by understanding.

The opening of Tacoma Community College marks a milestone for the Tacoma Public Schools. I am proud to join with the Board of Directors, the Superintendent and his staff to welcome you to your new campus.

Although we are proud of the new facilities, buildings do not make a college. An excellent faculty, and adequate library, and a sound educational purpose are more important ingredients. Students who bring with them curiosity, energy, and the excitement which accompanies the optimism of youth are more important ingredients. The motivations which brought you here and the confidence that our society has in higher education are more important ingredients. These necessary things we have in abundance as the classrooms fill for the fall quarter.

I would urge you to make strenuous demands of your college, and strenuous demands of yourselves. The teachers, the library, the laboratories, the lounges will become valuable parts of your college year to the extent you place demands upon them.

The buildings and the faculty are here because our community has worked half a decade toward this opening day. The reputation, the image, and the traditions which will characterize Tacoma Community College will begin with you. Best wishes for a successful year.

DR. THORNTON FORD

President Ford Guides College, Confers with Deans Terrey, Falk

Piloting the Tacoma Community College in its initial year will be Dr. Thornton M. Ford, president.

Administrative posts also are held by Dr. John N. Terrey, dean of instruction, and Richard C. Falk, dean of students.

Curtain To Rise Soon On 'First Day' Drama

The audience is waiting, the cast is eager and the curtain is about ready to go up on a play called "First Day at Tacoma Community College."

Many supporters of the community college program throughout Pierce County have anticipated this event. A thousand students have been accepted for fall quarter, and the instructors and staff are ready to welcome them to campus.

Registration will be held Sept. 13-24. During registration each student will prepare his class schedule with the help of his faculty advisor.

A bookstore will be open in building 18 so students may buy their texts and other supplies as soon as they have completed registration.

If members of the "First Day" cast need refreshments, they will find a snack bar in building 15. Students who prefer to bring their own lunches will soon spot comfortable chairs in the snack area where they may eat.

Newly revised bus service will facilitate transportation of Tacoma Community College students. Those who drive will find ample student parking space in specially designated areas.

Classes begin Sept. 27. Courses may be added until Oct. 1; the last day for withdrawing from a course is Nov. 19. Final examinations are Dec. 20-22.

TCC Will Offer ROTC Classes

United States Air Force aspirants may begin their officer training at Tacoma Community College.

The Basic Military Course (BMC) portion of the AFROTC curriculum can be completed at the college in a cooperative program with the air force and the University of Puget Sound.

AFROTC representatives from UPS will be at the community college during the entire registration period to answer questions and advise students.

By successfully finishing the BMC course at Tacoma Community College, a student may enter the Professional Officer Course (POC) when he transfers to a four-year school. He may also be eligible to compete for a full tuition financial assistance grant.

All students receive retainer pay when they enter the advanced program (POC) during the last two years at a four-year institution. Students who successfully complete the POC are commissioned second lieutenants in the USAF when they receive the baccalaureate degree.

Those interested may register for aerospace studies classes this year.

Tacoma Community College Calendar

FALL QUARTER

- Sept. 13-24 Registration
- Sept. 27 Classes begin
- Oct. 1 Last day to add a course
- Oct. 15 Holiday for state professional meetings
- Nov. 11 Veterans Day (holiday)
- Nov. 19 Last day to withdraw from a course
- Nov. 25-26 Thanksgiving vacation
- Dec. 13-17 Pre-registration for winter quarter
- Dec. 20-22 Final examinations
- Dec. 22 Last day of fall quarter
- Dec. 23 Staff day

WINTER QUARTER

- Jan. 3 Registration
- Jan. 4 Classes begin
- Jan. 7 Last day to add a course
- Feb. 21 Last day to withdraw from a course
- Feb. 22 Washington's birthday (holiday)
- Mar. 7-11 Pre-registration for spring quarter
- Mar. 15-17 Final examinations
- Mar. 17 Last day of winter quarter
- Mar. 18 Staff day

SPRING QUARTER

- Mar. 28 Registration
- Mar. 29 Classes begin
- Apr. 1 Last day to add a course
- Apr. 8 Good Friday (holiday)
- May 16 Last day to withdraw from a course
- May 30 Memorial Day (holiday)
- June 8 Graduation
- June 8-10 Final examinations
- June 10 Last day of spring quarter

Social Security Manager Tells Students of Benefits

More than 500 students in Tacoma and surrounding areas are eligible for monthly payments under the 1965 amendments to the Social Security Act.

This announcement was made recently by Jack Chastain, manager of the Tacoma Social Security Office.

A student who was receiving benefits on his parent's social security record and whose benefits were stopped at age 18 may be able to receive payments again if he is a full-time student under 22 years of age.

If a parent has retired, become disabled or died and the student was already 18 at that time, benefits may now be payable if the student is going to school and is under age 22.

Mr. Chastain said the change in the law is retroactive to January 1965.

Basics Come First In TCC Program

Just as the study of an English composition text has to precede an exciting hour with an Ian Fleming thriller, the basics in a college program have to be taken care of before extra-curricular activities are organized.

College officials readily agree that student participation in student government, publications, athletics and cultural and social activities are vital; however, not everything could be planned by the beginning of the first quarter.

Bus Service to Community College

Bus routes have been changed by Tacoma Transit System authorities to meet the needs of Tacoma Community College students.

The new schedule, which went into effect Sept. 5, is for the Kay Street bus. Buses marked "via 19th street" use 19th from Kay Street to Sprague.

Following are the weekday and Saturday schedules:

| LV. 11th & PACIFIC | | LV. 19th & MILDRED | |

NEW INSTRUCTORS — Getting acquainted during a college reception were new faculty members. Front row, left to right: Morris Skagen, Robert Lathrop, Mrs. Mary Anne West, Mrs. Doreen Faure, Phyllis Templin, Mrs. Mary C. Palo, Morris Summers. Back row: David S. Trier, Loyd Percy, Russell E. Clark, Ronald Magden, John R. Heinrick, Jack Hyde, Rolland Evans, J. Paul Steadman, Richard Perkins.

Dean Names Full-Time Faculty

Thirty-one full-time faculty members have been appointed by the Tacoma Community College, according to Dr. John Terry, dean of instruction.

Two of the new faculty members have doctoral degrees, 26 have master's degrees and three have bachelor's degrees. They represent 35 colleges and universities.

Faculty members and the schools at which they studied are as follows:

William G. Anderson, psychology — B.S. and M.E. degrees from University of Idaho.

Mrs. Doris Bennett, English — B.A. from University of Nebraska; M.A. from University of Wyoming and University of Washington.

Russell E. Clark, science — B.A. from Central Washington State College and Western Washington State College; M.S. from U of W, Stanford University, Reed College and Oregon State University.

Robert Dezell, music — B.A., Washington State University and U of W; M.A. WSU.

Rolland Evans, business administration — B.A. and M.A., University of Puget Sound.

Mrs. Doreen Faure, librarian — B.A. and B.Ed., Whitman College, WSU, U of W. and UPS; M.L.S., U of W.

Mario Faye, Spanish — B.A., Columbia Union College; M.A., Andrews University.

Frank E. Garrett Jr., English — B.A. and M.E., University of Illinois.

Sheldon Gilman, social science — B.A., Norwich University; M.S., University of Buffalo, University of Virginia, University of Utah.

John R. Heinrick, physical edu-

cation — B.A. and B.Ed., WSU and UPS; M.Ed., WSU.

Jack Hyde, geology — B.S. and M.S., Everett Junior College and U. of W. Other study at San Francisco State College.

Luther T. Jansen, anthropology and sociology — B.A. and M.A., U of W; B.D. Union Theological Seminary.

Monty B. Jones, English — B.A. and M.Ed., Western Washington State College. Other study at University of California, University of Oregon and San Francisco State College.

Robert Lathrop, counselor — B.A. and M.Ed., Central Washington State College. Other study at WSU.

Students May Ask For Tuition Loans

Tuition loans are available for Tacoma Community College students, according to dean of students Richard Falk.

Quarterly loans are usually limited to actual tuition costs, the dean said. For full-time students who are state residents the fee is \$70 a quarter; non-resident students pay \$160.

To obtain a loan, the student must fill out an application for financial aid. His request is then submitted to the dean of students for approval.

No interest is charged if the student repays his loan according to the agreement which he signs.

Other types of financial assistance available to a limited number of qualified applicants are tuition scholarships and part-time employment on campus, Dean Falk said.

Ronald Magden, history — B.A. and M.A., University of Idaho; Ph.D., U of W.

Harry Markowicz, French — B.A., U of W. Two certificates for study at the Sorbonne, Paris.

Arthur D. Martinson, history — B.A., PLU; M.A. and Ph.D., WSU.

Paul Michaels, art — B.A., M.F.A., WSU and U of W.

Mrs. Mary G. Palo, counselor — B.A. and M.Ed., UPS and Central Washington State College.

Loyd Percy, mathematics — B.A., UPS; M.Ed., Western Washington State College and University of Minnesota.

Richard Perkins, science — B.S., M.F., U of U and UPS. Other study at University of Wyoming.

Robert R. Khule, English — B.A., B.Ed. and M.A., UPS.

Henry Schafer, mathematics — B.A., M.Ed., U of W and UPS; M.A., WSU.

B. Howard Shull, B.A. and M.A., Pacific Lutheran University.

Mrs. Carolyn Simonson, English — B.A., Grinnell College; M.A., Northwestern University.

Morris Skagen, librarian — B.A., M.B.A., M.L.S., U of W.

J. Paul Steadman, science — B.A., M.A., Eastern Washington State College; M.S., WSU.

Morris Summers, drama and speech — B.F.A., U of W and UPS; M.A., Columbia University and University of Southern California.

Phyllis Templin, physical education — B.A., PLU.

Margit A. von Bredow, German — B.S., University of Wisconsin. Other study at University of Colorado.

Mrs. Mary Anne West, English — B.A., M.A., Whitman College and WSU.

Insurance To Cover College Accidents

A special accident insurance program for Tacoma Community College students and faculty will be available only during registration, according to Richard C. Falk, dean of students.

A voluntary plan, the insurance offers broad coverage up to \$3,500 for any one accident. It has been recommended by the college's insurance advisory committee and approved by the board of directors of Tacoma Public Schools, Dean Falk said.

Insurance Coverage

Included in the policy coverage are accidental bodily injuries sustained by the insured under the following conditions:

1. While on the premises of the college, because of classes or study required by his course, attending a college-sponsored and supervised

college activity;

2. While the student is under direct supervision by members of faculty participating in college-sponsored and organized activities conducted off the college premises;

3. While the student is in college-provided and approved transportation traveling directly to or from college as the result of required participation in a college-sponsored and supervised activity away from the campus.

Not Covered

The insurance does not cover any expense caused by aggravation of pre-existing or chronic conditions, bacterial infections (except those which occur with or through an accidental cut or wound), inguinal hernia, off-campus skiing, skating, dancing or watching any of these activities, riding in or on a

motor vehicle driven by a minor or student when the trip is not arranged by the school, war or any act of war, or play or practice of interschool athletics.

Payment under the accident policy will cover expenses of medical or dental treatment, including rent of crutches, wheel chairs, belts or braces prescribed by the attending medical authority.

Pays Hospital Fees

It also pays hospital services, including board and room, ambulance hire from accident site to the nearest doctor or hospital, medicines, anesthetics and their administration, bandages, dressings, casts, special medications and tests.

The accident insurance plan was arranged by United Pacific Life Insurance Company, a local firm.

Lay advisor Ernest Messenger, school superintendent Dr. Angelo Giadrone and Pres. Thornton Ford admire scale model.

A new beacon for the community.

One wall takes its place.

Symphony of Progress

The hoarse tune of the giant earth mover with its crescendo and diminuendo, the staccato of hammers in the rhythm section, high-pitched whines of busy power saws, an entire orchestration of knocks and taps, clicks and thumps, rattles and whirrs . . .

All of these — melodies of men and machines — are arranged into a symphony of progress, the composition of a college.

Another building nears completion.

Dream of Community Education Begins To Come True

A dream that is beginning to come true — this is how the school board president, the superintendent and the president have described Tacoma Community College.

Michael J. Sterbick, Angelo Gaudrone and Thornton M. Ford are spokesmen for many community leaders, educators and voters who envisioned the need for a community college and then worked to make that dream a reality.

First Bid in 1961

Application for a community col-

lege was first submitted by the Tacoma School District in June 1961. Approval depended upon the state legislature's voting favorably on funds and location of college facilities.

That same month the Pierce County Advisory Committee on Community Colleges began its deliberations. The committee was appointed by the State Board of Education, and chairman was the Pierce County superintendent of schools.

At their July 24 meeting the advisory committee sent this message to the State Board of Education: "The Committee unanimously recommends that Pierce County needs three community colleges, preferably to be located in Tacoma, Clover Park and Puyallup, but that the first one of these we believe should be in Tacoma."

The request was not to be granted in 1961, however.

Plans of the district were not forsaken. In a bond issue that car-

ried about 4-1, Tacoma voters approved \$500,000 for a community college. Metropolitan Park Board decided without cost a 40-acre site at So. 12th and Pearl Streets, and negotiations were begun for additional land to bring the site to nearly 150 acres.

Approval Granted

In 1963 the Washington State Board of Education officially approved the district's request; they designated September 1965 as opening date of the new college.

Contracts for construction of the first two buildings were awarded in November 1964 to Strom Construction Co. Architect Lyle Swedberg described the bid of \$215,819 as very good.

Work Begins

Work began immediately on the campus site, which had been enlarged to a total of 150 acres. The first wall section of a building was lifted into place in March 1965.

Two buildings were slated for completion in time for fall quarter. Another nine buildings are to be ready for winter quarter. A third phase will bring the total to 19 buildings including a physical education building, according to college officials.

'Green Frosting'

On May 15, 1965, the Tacoma News Tribune related the announcement that the college had received a large federal grant by noting: "The U.S. government has applied the frosting to the Tacoma Community College cake. And they colored it green."

The grant of \$705,469 represents about 40 per cent of the cost of the first nine buildings, Dr. Thornton M. Ford, president of the college, said.

Cost Set

Total cost for the community college has been set at \$3¼ million, with \$1¼ million coming from local funds and \$2 from state matching funds. Money from the federal grant is being used for construction and equipment costs not covered by state matching funds.

College, Vocational-Technical Institute Clasp Hands

Joining hands in a special educational partnership are the Tacoma Community College and the Tacoma Vocational-Technical Institute.

The Tacoma Vocational-Technical Institute is designed to equip its students with necessary skills and knowledge to meet the de-

mands of specific occupations. In most cases on-the-job training and extension programs provide an opportunity for subsequent advancement in a chosen occupation.

College Meets Needs

On the other hand, the Tacoma Community College meets the de-

mands of college transfer courses, general education, adult education and community service.

The two schools offer a complementary program for local students. Class and laboratory work accomplished in the Vocational-Technical Institute may be evaluated by the college for use as terminal credit at the discretion of college officials.

Transfers Possible

While vocational-technical work cannot bear transfer credits toward a baccalaureate degree, a four-year institution may evaluate a student's educational experience in terms of credit in any manner it chooses, according to Tacoma Public School officials.

Several options are available to students. For example, a two-year technical program at the institute plus a program of required courses at the college would give the student job training, an institute cre-

dential and an associate degree from the college.

"A growing number of students are becoming interested in a program including participation on both campuses," Richard Falk, dean of students, said. "We are eager to help students plan this type of program."

Continued cooperative guidance and counseling liason will be maintained between the institutions to help students analyze available programs in the light of their own personal aptitudes and preferences.

New Catalog Tells Hows, Wherefores

"How are we graded?" "What are the physical education requirements?" "What is probation?"

These questions and many more can be answered by referring to the 1965-66 catalog of the Tacoma Community College.
